CREAM OF NEWS.

About Railroads.

The officials of the O. V. Raliron were in the city lart week consult-Ing with their attorneys, but did nothing towards submitting a new proposition. On the other hand, they have decided to go through the formality of moving for a re-hearing in the Court of Appeals, which does not re-assemble till September. This means that nothing may be expected before October or perhaps later. The KENTUCKIAN does not look with favor upon this dilly-dailying. It we are to have another O. V. proposi tion it should be forthcoming a heads it cff. The O. V. is the favo rite line with our people and if it wants to come to Hopkinsville its officials should say so in time to pre vent complications which may arise in the future. Until the fact is dom onstrated that the O. V. is not coming our way, the KENTUCKIAN is no willing to lose faith init. Princeton, where there are two connecting lines, is the most desirable point for us to build a railroad. There can be no doubt of this.

A New Proposition.

The Kentucky & Tennessee Rail road was chartered by the Kentucky Legislature in 1871 and the company has been organized with A. H. Clark, President, A. V. Towner, Scoretary, and H. C. Gant, S. C. Mercer, F. J. Brownell and M. D. Davie, directors. This company, in connection with a enn-transion company, submitted a proposition to the City Council Saturday, at a called meeting. They propose to build a tine of road from Hopkinsville to some point on the C. & O -probably White Plains-for a \$100,000 stock subscription from Hall where the festivities were con the city. The usual guarantees to be given as to freight rates and the like. Work is to be begun within 60 days from the time the aid is voted and the road to be completed in one year In the event the road passes into the L & N.'s hands the city's money is to be refunded. Bonds not to be is sued until the road is in running or der. The Council discussed the matter at length and postponed action until the next regular meeting.

Shot In The Shoulder.

Fiem McReynolds, col, was shot in last Friday morning in the rear of C. W. Driver & Co's. grocery and sa loon. The shooting was accidental Mr. Perkins, who is a member of the firm, had been cleaning off his gun and as the work was completed McReynolds and Mr. Driver, his partner, appeared in a friendly scuffle over a keg of beer, one of them calling him to lend his protection. He thinking his gun was empty, drew it through the window as if to shoot when it was discharged. It was loaded with bird shot and only made a slight flish wound. Mr. Parkins immediately gave himself up and was recognized in the sum of \$100 for his appearance this morning.

A Dead Child Found.

The dead body of a mulatto male child was found in the river near Wolfe's ford, south of town, Sunday morning. The child was newly born and had to all appearances been in the water a week. The body was too badly decomposed to tell whether any violence had been done, or whether or not it was born dead. Dr. Dulin, the county coroner, wen to the scene yesterday and held ar Inquest, but failed to develop anything to solve the mystery. Suspleion rests on a mulatto girl in the viciuity, but there was no evidence brought forward and the forther in vestigation of the affair will be referred to the county attorney.

A Bold Thief.

Phelps was lying down and stole from an adjoining room her pocket town and lay down to rest, but was tion to attend the annual meeting of the officers then installed were C. not asleep when the intruder made the Company shows a high apprecia- E Kennedy, C.
